

Name _____

Read each story. **Answer** the questions.

We know a lot about the moon. It orbits Earth. It reflects the light of the sun. It has craters on its surface. Wouldn't it be fun to hop on a ship and go to the moon?

1. Write the sentence that tells the main idea.

2. Write one detail that tells more about the main idea.

We know that Mars is red. We also know there was once water on the planet. Mars is a place we want to learn more about.

3. Write the sentence that tells the main idea.

4. Write one detail that tells more about the main idea.

Home Activity Your child described the main idea and supporting details in two selections. Tell your child about your childhood. Ask your child to tell you the important parts. Together, brainstorm a good title.
